

Our Vision at Hambrook

Whole School
Whole Child
Whole Hearted

Whole School

We work tirelessly to create an inclusive community where children have a sense of belonging and responsibility. We actively encourage children to consider and respect others in both our local community and the wider world.

Whole Child

At Hambrook, we recognise the importance of providing each child with not just a high quality education but also the tools to be successful in life. We strive for children to reach their full potential and achieve success in all their endeavours.

Whole Hearted

We are a school that is passionate about the well being and achievement of all the children in our community. We strive to ensure that everyone is challenged, supported and encouraged to achieve their full potential. We want our children to leave our school with kind hearts and open minds.

We like to measure a child's success not just by their formal assessments at the end of Year 6 but by what type of person they are. It is incredibly important for us that children leave with the foundations for a successful journey through secondary education and the tools to equip them in later life.

Our Curriculum Drivers
